

Silvaco Opens Shenzhen Office to Support Company's Asian Expansion and Growing Demand for Semiconductor Design Solutions

February 26, 2019

SANTA CLARA, CALIF. and SHENZHEN, CHINA, – February 26, 2019&Silvaco, Inc. today announced the opening of its latest China office to accommodate the company's continuing growth and reinforce its well-established sales, service and technical support for customers in China. Located in Shenzhen, one of the world's largest international trade and manufacturing hubs, the newest Silvaco China office includes both sales and applications engineering services.

"China is a key part of the global semiconductor ecosystem with development in Display, power IC, AI, and IoT, which are critical to the expansion of Mobile and Big Data electronics businesses," said Sharon Fang, General Manager of Silvaco China. "Silvaco has been inside China since 2013, and our Shenzhen office is in a brilliant new commercial district where over 500 semiconductor technology, foundry, and advanced electronics companies have established their manufacturing and R&D facilities. Silvaco's EDA design tools and IP are positioned and delivering to this innovative new customer base, making China one of our fastest growing regions. The new center in Shenzhen strengthens our commitment to the expanding semiconductor IC market and our customers, who will now have even easier access to Silvaco's leading technological solutions and quicker support from our local sales and technical teams."

Silvaco China's new office is located at:
Suite 701, Building 6,
Shenzhen Bay Science and Technology Park Zone 2,
Shenzhen, Guangdong Province, China

About Silvaco, Inc.

Silvaco is a leading EDA tools and semiconductor IP provider used for process and device development for advanced semiconductors, power IC, display and memory design. For over 30 years, Silvaco has enabled its customers to develop next generation semiconductor products in the shortest time with reduced cost. We are a technology company outpacing the EDA industry by delivering innovative smart silicon solutions to meet the world's ever-growing demand for mobile intelligent computing. The company is headquartered in Santa Clara, California and has a global presence with offices located in North America, Europe, Japan and Asia.
